

## **Resources for Teaching Health Care Providers About Family Centered Care and Family Involvement**

<http://www.familycenteredcare.org/advance/clinician-links.html> The Institute for Family Centered Care has numerous resources for teaching HCPs about family issues. They also host an annual conference which will be in Seattle this year.

<http://www.partoparvt.org/ffi.html> Teaching Family-Centered Care to Medical Students and Pediatric Residents at the University of Vermont – A Partnership with Families

<http://www.familyvoices.org/> Family Voices is a national grassroots network of families and friends which advocates for health care services and provides information for families with children and youth with special health care needs.

<http://www.hrsa.gov/culturalcompetence/> Many resources for interacting with families in a culturally competent manner.

<http://www.fifionline.org/> Florida Institute for Family Involvement (FIFI)- an organization partially funded by MCHB that helps families become advocates and advocates for families. They also consult with organizations to help the organizations develop family involvement.

Conni Wells ([cjwells@sprynet.com](mailto:cjwells@sprynet.com)), past Executive Director of FIFI, has extensive trainings, surveys, programs, resources; etc related to family involvement and FCC though her work with FIFI.

FIFI also has core trainings it does for their family consultants on FCC. Through FIFI's IFCAP grant they are developing a community based training intended to be replicated on family centered, family driven care, available in February 2007.

“Developing and Sustaining a Patient and Family Advisory Council” by Patty Devine Webster and Beverley H. Johnson. I received it from the Institute for Family Centered Care 7900 Wisconsin Ave., Suite 405 Bethesda, Maryland 20814

[www.familycenteredcare.org](http://www.familycenteredcare.org).

Iwaishi L, Taba S, Howard-Jones A, Brockman D, Yamashita L, Ambrose A. Training on Family Centered Interprofessional Collaboration. Health and Education Collaboration Project, Hawaii Medical Association, 1998.

This article talks about a course designed by a group at UF to teach family centeredness (I wasn't part of developing the class, but do help teach it)

<http://families.health.ufl.edu/IFH.pdf>

Here are some cross-cultural case studies that the PPCs developed. I think of cultural competence as overlapping with family centered care, so that's why I'm sending the link: [www.ppc.mchtraining.net](http://www.ppc.mchtraining.net) (then, click on the place that says, "click here". If you click on the link that actually refers to the cases, you just get a brochure about them, but if you click the "click here" in the sentence below, the cases come up.

Grainer-Monson, M and Haslett, J. "Worlds Apart: A Four-Part Series in Cross Cultural Healthcare" Boston, Mass: Fanlight Productions, 2004. This is another MCH funded teaching tool. It's a series of four videos designed to help healthcare providers learn about working with families from other cultures. Its designed to be a discussion and a discussion guide is included. [www.fanlight.com](http://www.fanlight.com)

Anncy Graziano was involved in piloting an online Family Centered Care course, several years ago. One of the teachers or developers was Sharon Taba, who also participated in the Hawaii curriculum. Anncy's email is [Anncy.Graziano@umassmed.edu](mailto:Anncy.Graziano@umassmed.edu) If, for some reason she doesn't still work there, I have some other emails. It was a wonderful course (I was involved in piloting it). I don't know what ever happened with it(that is, if it still is available and if so, where).

The University of Alabama at Birmingham has developed three teaching items:

1. a “quick and dirty” guide for parent presenters at trainee teaching sessions, developed by Claire Lenker and Dr. Karen Dixon, the family faculty for the UAB LEND.
2. an intro **for families** to being a parent consultant, developed by Karen Dixon
3. an excellent intro to family involvement **for trainees**, also developed by Karen Dixon

I have these items on file (the first two are powerpoint and the last is a word document).
