

Connecting the PPC's Social Work Trainees

Lauren Woodworth and Zoila Jarquin

This project is/was supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS), under grant #T72MC00002/University of Florida Pediatric Pulmonary Center/PI: Wagner. This information or content and conclusions are those of the author and should not be construed as the official position or policy of, nor should any endorsements be inferred by HRSA, HHS or the U.S. Government.

Why did we choose this project?

- ▶ MCHB goal of collaboration
- ▶ We wanted to hear from other PPC Social Work Trainees

What did we do?

Two part project:

- ▶ Videos

- ▶ Facebook page

What was the outcome?

- ▶ A sense of connection with the other PPCs
- ▶ Information about projects being conducted
- ▶ Better understanding of social work's role in various organizations

Thank you so much for sharing your experience! It sounds like your placement has been really valuable. I like the idea of having multiple MSW students in one place. What a wonderful way to promote cross-department communications!

Yes! Earlier this week two of us had overlapping work, and it was incredible to happen to be sitting right next to each other and ask the questions needed to gather the necessary information prior to heading to the floor!

Facilitating "tough conversations" takes some clinical skills and finesse. Your patients are lucky to have an avid advocate on their side, and no ONE SW encounter the same. Also, MI is one of my fav. interventions!! I engaged in CBT/MI and SBSF during my outpatient therapy sessions. What other disciplines were at your placement for CORE seminar?
